**Aluminum fin and copper tube  
water to air heat exchangers:**

We offer a variety of sizes with our heat exchangers. Our smallest size is a 12"x12" at \$112.08. Our largest is a 30"x30" at \$350.64. 12"x12" is approx. 62,700 BTU with 800 CFM blower and 10 GPM. 30"x30" is approx. 209,600 BTU with 2400 CFM blower and 10 GPM. Please call to verify that your size is in stock. **Shipping is free!**

**Brazed Plate Heat Exchangers:**

Made with a copper vacuum-brazed stacked stainless steel construction, these plate heat exchangers give you a high performance product, with a compact design, and numerous applications in a solid self-contained unit. 1" MPT inlet/outlet. 150 max psi.

250 F max temp. 60,000 min btu/hr.

PL-410-10 (10 plate): \$112.55

PL-410-20 (20 plate): \$140.90

PL-410-30: \$185.89

PL-410-40: \$221.31

PL-410-50: \$258.08

**Includes Shipping!**

**Copper sidearm water to water  
heat exchangers:**

Our sidearms are made with a shell and tube design (7 small pipes enclosed in one large pipe for maximum heat transfer).

Overall length of sidearm is 17".

14,000 BTU output with a domestic pump at 2 GPM.

SAT1-Threaded fitting: \$116.91

SAS1-Sweat fitting: \$99.62

**Free Shipping**

**GPD series Single-phase  
3-speed electric pump:**

Our circulating pump can produce up to 39' head and 21 GPM!

-26' head at 8.8 GPM

-19' head at 13 GPM

-13' head at 17.6 GPM

Perfect for those looking for outstanding torque! **Includes 1"**

**FPT flange kit.**

GPDCP: \$148

**Shipping Included!**
